## About This Game

Challenge your mind with puzzles based on optical illusions. Find the perfect angle by rotating the pieces to clean up the chaos

### **REAL OPTICAL ILLUSIONS**

Nothing is what it seems! Sharpen your perception by beating 100 puzzles with no apparent structure or logic.

### **PUZZLES BASED ON 3D PERSPECTIVE**

Detect the perfect angle in which a chaotic composition reveals the figure hidden behind a game on perspective. Test your visual acuity by accepting a greater challenge each time.

### **STUNNING GRAPHICS AND SETTING**

Penetrate the mind of the protagonist immersed in a seductive atmosphere. Stunning graphics, original music and captivating sound effects.

### **CHARACTERISTICS:**

- 100 puzzle levels based on optical illusions.
- Original soundtrack
- Unique graphics and setting.

- 
- Simple and mechanical control for relaxed gaming.
  - Compatible with HTC vive, Oculus rift and windows mixed reality.

Title: Sea of memories  
Genre: Adventure, Casual, Indie, Simulation  
Developer:  
Ivanovich Games  
Publisher:  
Ivanovich Games  
Release Date: 1 Jun, 2018

a09c17d780

**Minimum:**

**OS:** Windows 7 SP1, Windows 8.1 or later, Windows 10

**Processor:** CPU: Intel i5-4590, AMD FX 8350 equivalent or better

**Graphics:** Nvidia GeForce GTX 960/AMD Radeon R9 290 equivalent or greater

**Storage:** 1 GB available space

English,French,Italian,German,Simplified Chinese,Korean,Japanese,Russian

---

it is a short game, it is nice to kill a few minutes but honestly there isn't much to it and it gives more questions than it entirely answers, obviously you can figure out most of it with all the clues but not much is actually explained in a concrete way. If Fighting Fantasy was such an amazing series, perhaps minds will be blown when these fans read Joe Dever's works - most of his Lone Wolf CYOA books are available for free online (legit) with his permission, so there's no reason to be wasting money on what is a rather bland story and CYOA game here.

If you are a hardcore Fighting Fantasy fan, or just kupo for the CYOA genre in general, then yeah there's fun to be found here, but this a book that can be read in 10-15 minutes flat and really shows its age for the type of game it is.

Pick it up on sale if you must, but don't expect award-winning writing here.

. I will start with saying that yes this is very early access and it still needs work.

But from what I can see it gets worked on a lot, and the dev is in game chat often.

He listens to what we have to say and comes back with explanations when there are some issues.

There are still things not in the game yet and I can not comment on these but these are some of the things you can do in this game:

-Run a company that provide services. (example : transport, construction, renting of buildings, housing and the restaurant business.)

-Run a company that provides materials. (example : Farms, Fishing, Wood works, steel mills , ect)

A mix of these are required to run a succesful company, by balancing your branches to work with eachother is quite fun but challenging at first, but after a while once you get the hang of how the game works it becomes really relaxing.

If you like numbers and an initial challenge I recommend having a look at this game!. Fun once through, and then never again.

Don't pay more than \$2 for this game.. Graphics: 7/10

Gameplay: 7/10

Its very cute and challenging :D

I wish it was longer :( Fun arena shooter and very cheap aswell.. I have had a lot of fun with the game since I started playing.

The game is still in early access, with constant updates from the Dev. Playing lots of early access games I can say it is impressive the amount of updates given.

\u2610 Don't buy

. God bless you~ What a great game I've ever played ...

---

Mutant Storm Reloaded is an arcade actioner that shares quite a few similarities with another Steam title, Scoregasm. The graphics are adequate and the music is pretty unremarkable, but it does feature a power up system that keeps the gameplay somewhat interesting. The game does however seem to have a fairly mundane level design, and lacks the same sort of frenetic arena that Scoregasm offers. Although the game does have widescreen and Steam Overlay support, the co-op mode is unfortunately local only. In short, Mutant Storm Reloaded is an average entry into the genre, one that is worth grabbing if you catch it on sale, but otherwise there are better titles in the genre.. Mejor que los F1 de Codemasters.. What the duck?

Pato Box starts off with a lot of charm. Monochrome comic book aesthetics and a player character that is literally a duck head on a boxer. It's beautiful. 5 stars.

Then the gameplay starts.

Pato box alternates between two styles of gameplay: a boxing game loosely paying homage to Nintendo's Punch-out, and a 3D exploration type mode.

The boxing gamemode has potential but comes across as just annoying in practice. Backgrounds are distracting, high-damage moves are poorly telegraphed and often require special responses that aren't told to the player. This inevitably turns what would be fairly thrilling fights into trial and error without any enthusiasm or tension. I stopped enjoying these pretty fast.

The exploration gameplay is just flat-out not fun. the Monochrome 2-D sprites in a 3-D void only made comprehensible as a maze pulled straight from a doom level by white line detailing, all complimented by music that gave me a headache. You're forced to navigate using behind-the-back unresponsive tank controls, which while tolerable in exploration and story-building become insufferable when these segments become filled with traps and hazards. True to its spirit as a boxing game, Pato Box made me want to send my fist straight through my monitor.

I hate to say it for a game with so much clear potential, but this isn't a match worth betting money on.. One of the best bullet hell game that I ever play. You couldn't bomb the enemies like the other game instead you must do suicidal move when the power full.

The soundtrack was awesome as well ...

Has many variety dolls ... which has awesome powers ..... I love 2 dools in here .. they just reminded me of Raiden ships

. The entire game is available for free and that's awesome.

Thankfully, we can support them by buying a cheap dlc.

And of course, that's exactly what I did. It's a nice game.

We have to support them, if we want more stuff like this.

Therefore: I'm going to give this simply a positive review.

If you enjoyed the free game: You should purchase this.. Terrible. I think it could have potential in the right hands, but the developer planned an update soon, 1 year ago, and no update. He has more or less abandoned it.. The game is short and sweet, not hard at all but still enjoyable. The puzzles are fun and going around and collecting objects you need dosen't take away from the fun here. I'd recommend trying it since it's free.
